BE THE INSPIRATION

SECOND QUARTER III

Run for Poverty. Well Cindy and Gaston did, together with their colleagues and care hosted children, having generated significant funding support in the process. Very impressive indeed. Only time restricted our desire to know more about this impressive Kenya project.

A few fellowship opportunities are on the horizon:

Lift the Lid luncheon – with Wayne and Senior Sergeant exercising style and function expertise in awards and penalties in support of Australian Rotary Health.

Oaks Eve Calcutta – Neil Wilson, Kent and Wayne (again) are finalising arrangements for this Fellowship and minor fundraiser. We are aiming for 80 attendees and remember you don't need to know anything about horses, in fact the less you know the more fun you are likely to have.

A Theatre Night is slated for November – watch this space for more details.

Speaking of fun and I tell no fibulas – the COG continues to discourage editors. Graham Openshaw flees the country to Brazil, then Bruce neglects his sailing expertise resulting in broken bones. Fortunately, Rodger 'Thrice' is *The Third Man* and is back on the composing table selecting type for the benefit of our member communication. Please email your contributions to Rodger until further notice.

Our resident "hipster" Giuseppe has finally been kicked out of Epworth and is no doubt cutting up the linoleum at home twisting to Chubby Checker.

Safe Plates Day – Seven of your fellow members turned out in the drizzle last Tuesday together with members of Neighbourhood Watch and the SES to replace fixings on community number plates with theft resistant screws.

Noel

And If your car could travel at the speed of light – would your headlights work?
